

# Call for Innovations: Scaling agroecological solutions for one-health Approach

## 3rd Kenya National Agroecology Symposium

### Session Title: Scaling Agroecological Solutions for One Health Approach

We invite innovators to showcase practical agroecology solutions that integrate ecosystem, animal, and human health. This session will highlight scalable agroecological innovations addressing real-world One Health challenges across Kenya.

The top three innovations will be recognized and awarded.

### Submission Requirements: (Link with the following details to be submitted)

- Innovation title
- Innovator(s) and affiliation
- Category (Youth/Women/Pastoralist/institution/Others)
- Problem statement (max 150 words)
- Innovation description, what qualifies it as an agroecological innovation, how it addresses one-health challenges, its practical scalability, and demonstrated impact at local and national levels (max 300 words)
- Media (photos/video including links to online digital platforms if available)
- Contact details (email address, telephone number)
